

Dear colleagues

Our newest edition raises awareness about the upcoming ideation round in 2021, where all colleagues are invited. We also guide about how to acquire funding for your idea, or project, and lastly, we also provide access to our recent Innovation Coffee Time sessions. We are always ready to meet you for ideation in our Innovation room, or via Microsoft Teams.

The Innovation Team - Alexia, Martin and Elizabeth

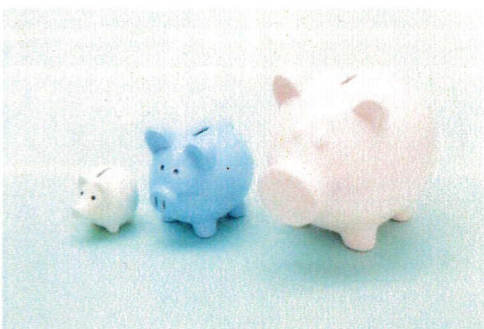

We have initiated our ideation round 2021!

Until July 15th, we would like to invite all our colleagues to share with us the needs and challenges of the clients as well as your innovative ideas which we will solve together this year!

This year we've taken the opportunity to digitalize our ideation process – we have created a template in our intranet for you to share your idea and to comment/like on our other colleagues' ideas. Try it out here!

We look forward to a new exciting round of ideas!

Looking for funding for your idea or project? Let us share with you HOW.

Are you interested in Funding opportunities?

Send us an email (innovation@semcomaritime.com) or visit us in the Innovation Room for a cup of coffee for a chat. We can share our experiences, capabilities and the steps implementing it.

Did you miss any of our Innovation Coffee Time Sessions? We recorded them for you!

Take a look at our last two sessions that were about:

Data Mining with our guest Trifork

Synergy XR with our guest Unity Studios

Stay tuned for our next inspirational Innovation Coffee Time!
