

Manpower

the people you need

The people you need

Our resource pool of approx. 460 experienced and skilled candidates is ready to support your projects or operations.

We select our people based on their experience, qualifications and service-mindedness and we are determined on getting the job done right the first time - without compromising safety!

Trades examples:

- Electricians
- Welders
- Operators (crane, deck, helideck)
- Roughnecks
- Radio Operators
- Roustabouts
- Engine Room Operators (ERO)
- Technical Assistants
- Technicians (process, electrical, mechanical, automation, instrument, telecom)

Advanced levels:

- Technicians
- Foremen
- Project managers
- Nurses
- Supervisors
- Engineers

Safety is part of our DNA

No compromise in safety, environment and quality; protecting people, assets and the environment!

Health and safety:

- Safety is the natural key factor in everything we do!
- We protect the health and safety of our people and your assets
- We adhere to globally approved standards in health and safety.

Environmental responsibility:

We are committed to helping our customers minimise the environmental impact of their projects and operations.

Quality:

We use the latest quality management tools to ensure that all our processes and projects meet the highest international standards.

“

We provide the people you need - worldwide!

Dedicated people for your projects

We deliver highly qualified, professional and cost-efficient resources for your projects - worldwide.

Our large and versatile resource pool consists of dedicated people with the competences you need in order to get the job done. We make sure that competences are continuously updated and that all employees attend safety courses and receive ongoing training. We say that »safety is part of our DNA«, and this mindset is strongly rooted throughout the organisation.

Our people are solution-oriented and when we recruit people, we do not only evaluate their technical competences - but also their ability to get things done right the first time, their independence, service-mindedness and flexibility!

We set the right team for your specific job:

- We are responsive - meaning that we deliver long-term or short-term resources for your projects at a short notice.
- We recruit the right people for the job.
- Our people are trained and experienced within the rig, oil and gas and wind markets.
- We ensure efficient mobilisation.
- We handle courses and certificates.

Protecting your assets

Our experienced, competent and reliable staff will take care of your valuable assets - from the day-to-day operation to the repair and maintenance of your asset structure and electrical systems. You can trust our people to protect your assets.

Our resource pool consist of a large number of skilled workers and technicians within all trades. All resources have first-hand experience from working offshore on rigs and platforms. Our service is responsive and flexible, providing exactly the people you need, where and when you need them.

Reliable and flexible

We always go the extra mile to supply the right people for the job - quickly and efficiently. We put much effort into matching skills and experience to the challenges at hand. Therefore, you will also experience that manpower from Semco Maritime equals industry experience, relevant qualifications and a flexible and solutionoriented mindset.

“

It is all about people doing what they do best ...

Highly skilled consultants

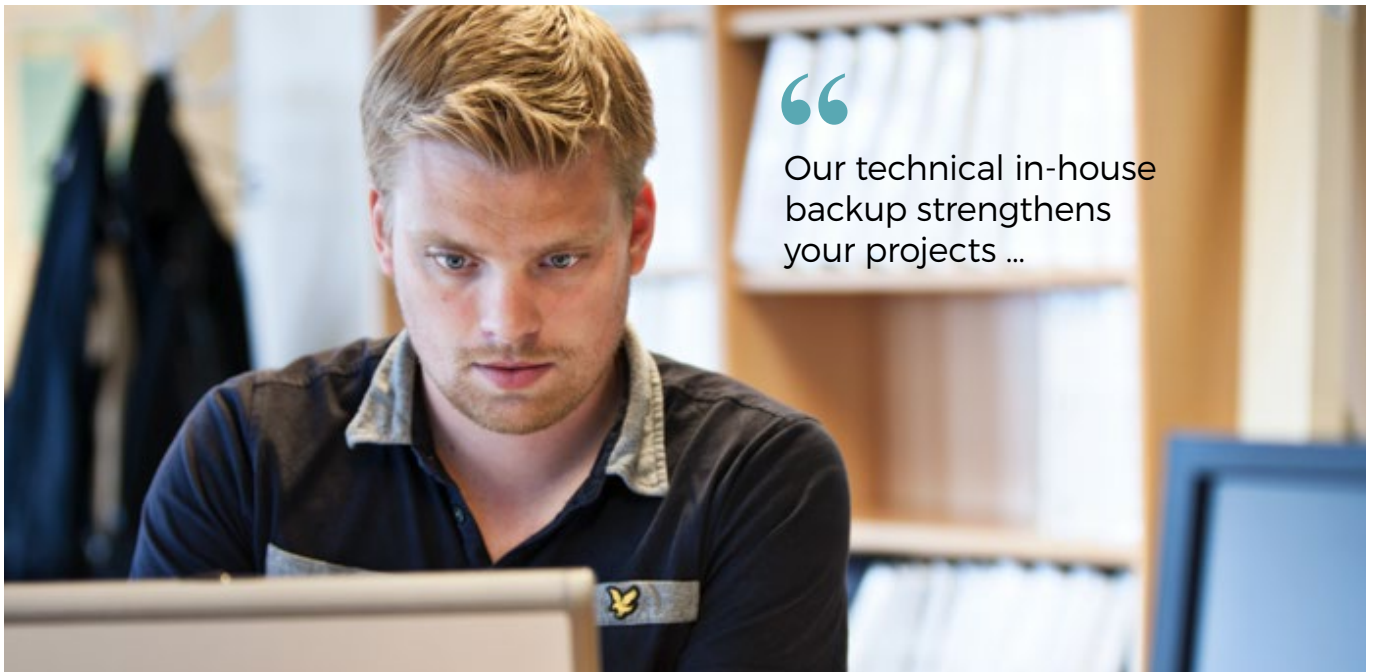

In Semco Maritime, our greatest asset is our people. Our dedicated people have valuable industry knowhow and solid project experience from working on projects in our own large organisation. Therefore, we can provide you with professional long-term or short-term consultants who will immediately strengthen your project team or organisation!

We have a broad and versatile pool of available people, who are trained within our own organisation, and we are therefore capable of meeting your needs.

We will supply exactly the people you need.

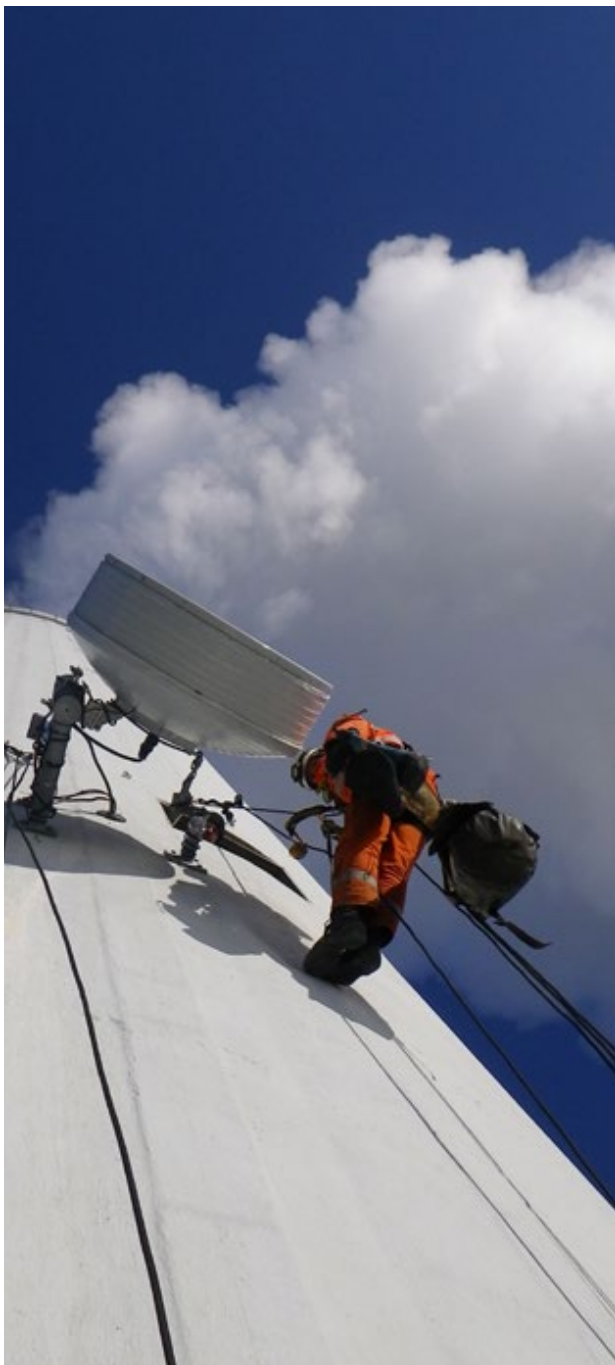

When working on your projects, our consultants benefit from a broad technical in-house back up across all disciplines:

- Engineers (electrical, mechanical, structural, telecom)
- Project managers and assistants
- Supervisors
- Planners
- Technical designers
- Document controllers

“

Our technical in-house backup strengthens your projects ...
